## Mission Statement

The Department of Administrative Services (DAS) is dedicated to providing a complement of world-class, customer-focused, and valued products and services to its customers both inside and outside of Iowa state government.

## Description

The Department of Administrative Services (DAS) is the primary corporate administrative services

provider for Iowa state government. Through its five enterprises (Human Resources, Information Technology, General Services, State Accounting, Purchasing), DAS is the first state government agency in the country to successfully implement entrepreneurial management as a business model. This model requires each enterprise to operate as a business within state government. These enterprises continually focus on customer satisfaction, streamlining operations, saving money, and resource use flexibility.

## Aging, Iowa Department of

### Mission Statement

The mission of the Iowa Department on Aging (IDA) is to develop a comprehensive, coordinated and cost-effective system of long term living and community support services that help individuals maintain health and independence in their homes and communities.

### Description

Iowa Department on Aging is the central point of focus in state government regarding elder Iowans under both the federal Older Americans Act and Code of Iowa Chapter 231 and works through Area Agen-

cies on Aging and the Iowa Aging Network to increase the public awareness of issues regarding elder Iowans and availability and access to programs and services to elder Iowans. Advocacy, case management, and a broad array of home and community based services are provided to elders and their caregivers to reduce the incidence of institutional care (nursing homes and other more costly settings) and extend independent living. Additionally, long-term care ombudsman services provide advocacy for elders in nursing homes and similar health care settings; all related to health, safety, and well-being.

expressed needs of our consumers to establish a highly successful service delivery system that has been emulated both nationally and internationally.

The Department's three major service areas--vocational rehabilitation (VR), independent living (IL), and library--are provided through four organizational divisions: Field Operations, the Adult Orientation and Adjustment Center, the Business Enterprises Program (BEP), and the Library for the Blind and Physically Handicapped. The foundation that underlies all of our programs is our positive philosophy of blindness. This philosophy also underscores the Department's mission which guides the delivery of these services to our consumers.

### Civil Rights Commission

#### General Fund

#### Appropriation Description

The Iowa Civil Rights Commission (ICRC) is a law enforcement agency whose primary mission is to eliminate discrimination through enforcement of the Iowa Civil Rights Act (ICRA) through competent and timely processing of complaints received by the ICRC. Enforcement of the ICRA can only be achieved if the ICRC is staffed by a sufficient number of well trained, competent and accountable staff members or the equivalent of FY13 FTE levels.

ICRC provides a cost effective and accessible process that resolves discrimination complaints in the areas of employment, housing, public services (public accommodation), education, and credit. Complainants can file with or without an attorney; there are no costs for filing. To prevent discrimination, ICRC offers training, education, and community outreach.

An effective discrimination enforcement agency helps Iowa increase the pool of qualified workers, in turn insuring Iowa receives broad based economic contributions from all sectors of society and full benefits from a diverse, creative workforce. To attract and sustain a pool of highly skilled workers, our agency assists in the training of a culturally competent workforce. Our agency educates business and industry on discrimination laws and diversity issues to prevent problems and provide a more welcoming economic climate.

## Utilities Division

### Commerce Revolving Fund

#### Appropriation Description

This appropriation funds the operations of the Utilities Division within the Department of Commerce. The Utilities Division/Utilities Board is charged with the responsibility of establishing just and reasonable rates for consumers while maintaining the financial integrity of those utilities under its rate jurisdiction, ensuring efficient, safe, and reliable telecommunica-

tions, electric, natural gas, and water utility services, overseeing energy efficiency programs, participating in relevant federal proceedings, and overseeing "Relay Iowa" and the equipment distribution program which enable people with communication impairments to access the telecommunications system. All Iowa Utilities Board costs are assessed directly to the state's utilities. If funding for the Utilities Board were to be eliminated, the state would be unable to regulate the rates and services of Iowa's electric, natural gas, water and telephone utilities. In 2007, these utilities collected more than \$7.3 billion from Iowans.

## Corrections, Department of

### Mission Statement

To protect the public, the employees, and the offenders.

### Description

The Department of Corrections is a public safety agency within the executive branch of state government charged with the responsibility of supervision, custody, and correctional programming for convicted adult offenders who are sentenced by the state Courts for a period of incarceration in State prisons. The Department also has specific funding and oversight responsibilities with regard to the state's eight Judicial District Departments of Correctional Services (Community Based Corrections), which provide the community supervision component of Iowa's correctional system. The Department consists of nine major

institutions that operate 24 hours a day throughout the year. The Department is responsible for providing "control, treatment, and rehabilitation of offenders committed under law" to its institutions. There are also eight Judicial District Departments that provide supervision and services to offenders in the community on probation, parole, or work release. Each district has a number of satellite offices in communities around the state and there are a total of 23 residential facilities operated by the Districts. The CBC charge is to "provide pretrial release, presentence investigations, probation services, parole services, work release services, programs for offenders convicted under Iowa Code 321J (OWI), and residential treatment centers throughout the district, as necessary." Currently the system employs approximately 4,000 staff, houses approximately 8,500 offenders in prison, and supervises over 25,000 offenders in the community.

## Vocational Rehabilitation DOE

### General Fund

### Appropriation Description

To provide comprehensive vocational rehabilitation service to eligible disabled Iowans through the provision of diagnostic, evaluation, counseling, placement, training, maintenance, transportation and physical restoration services. This provision of service will result in Iowans achieving their employment, independence and economic goals.

By federal law, once an eligible client is on the case-load; he/she must receive the full range of VR services necessary to work toward his/her employment goal. While services actually used vary from individual to individual, the services needed by each client must be provided. Consequently Case Services and Rehabilitation Services are inextricably linked in the delivery of services and goal achievement.

## Independent Living

### General Fund

### Appropriation Description

The overall concept of Independent Living Rehabilitation Services (ILRS) is complementary to that of the traditional Vocational Rehabilitation program in that both are designed to assist people with disabilities to reach established goals. The major differences are that eligibility for ILRS is not contingent upon the consumer's employment potential; and the outcome of services is measured by the individual's ability to function more independently in their home, family

and community rather than securing employment. Two approaches are used to improve the capacity or enable individuals with severe physical or mental disabilities to function more independently in their family and community, or when appropriate, to secure or maintain employment. A program operated by IVRS which provides direct services, including assistive technology, to individuals to assist in independent functions. Funds are also provided to Centers for Independent Living (CIL's) in local communities to build capacity for non-duplicative services and programs. Services are coordinated to assure that they are available statewide and to avoid duplication.

## State Library

### General Fund

### Appropriation Description

The State Library's role in Iowa's library system is leadership and coordination. State Library services fall into two distinct groups, direct library services and statewide library development. Direct library services provide library services to the three branches of government, the Iowa legal community, the Iowa health care community, and the general public. and trademarks library, an extensive collection of publications produced by state government, federal publications, and Iowa's liaison to the U.S. Census Bureau for Iowa census data. The intent of the State Library's statewide library development services is to ensure all Iowans equitable access to library services. Statewide programs include SILO, Iowa's electronic library network; Enrich Iowa, Iowa's direct state aid program for public libraries; Open Access, Iowa's statewide library card program; Access Plus, Iowa's library to library loan program; library accreditation; and librarian certification. State appropriations fund all direct library services and the statewide library development services of Enrich Iowa, SILO, Open Access, and Access Plus.

## Enrich Iowa Libraries

### General Fund

### Appropriation Description

Enrich Iowa, Iowa's direct state aid program for public libraries, is designed to improve library services and to reduce inequities among communities in the delivery of library services. The impact this program is having is: 1.) A number of libraries are increasing library hours making the library accessible in the evening and on weekends; 2.) Some libraries are making the Internet available to their communities for the first time while others are adding computer stations for public use; 3.) Others are purchasing new library books, videos, books-on-tape,

large print books, etc.; and 4.) Others have formed partnerships within their communities to support reading and literacy programs, to establish learning centers, to promote reading to infants and children.

Other benefits to Iowa communities are seen in the increased interest in librarian certification and library accreditation programs, increased enrollment by librarians in continuing education classes, and an increased demand by library boards for consultation and assistance in how to evaluate to improve local library services.

## Gap Tuition Assistance Fund

### General Fund

### Appropriation Description

Gap Tuition Assistance Fund program is a program designed to fill the gap where federal financial aid does not cover. These are shorter non-credit certificate programs that are not eligible for federal financial aid but help lead to employment for the students.

There are requirements regarding eligibility and participation and program requirements regarding what is an eligible program. All of these rules are spelled out in code. The 2 million appropriation is allocated among the 15 colleges to help subsidize the tuition costs for the students participating in the programs. Each college is responsible for how they fund the cost, whether they cover 100 percent of tuition and fees or whether it is some percentage of this.

## Gap Tuition Assistance Fund - SWJCF

### Iowa Skilled Worker and Job Creation Fund

#### Appropriation Description

Gap Tuition Assistance Fund program is a program designed to fill the gap where federal financial aid does not cover. These are shorter non-credit certificate programs that are not eligible for federal financial aid but help lead to employment for the students.

There are requirements regarding eligibility and participation and program requirements regarding what is an eligible program. All of these rules are spelled out in code. The 2 million appropriation is allocated among the 15 colleges to help subsidize the tuition costs for the students participating in the programs. Each college is responsible for how they fund the cost, whether they cover 100 percent of tuition and fees or whether it is some percentage of this.

### Pre Disaster Mitigation - Competitive

#### Fund Description

The Pre-Disaster Mitigation (PDM) program provides funds to States, Territories, federally recognized Indian Tribal governments, and communities for hazard mitigation planning and the implementation of mitigation projects prior to a disaster event. Funding these plans and projects reduces overall risks to the population and structures, while also reducing reliance on funding from actual disaster declarations.

Federal Emergency Management Agency (FEMA) will ensure that a State receives no less than \$500,000 for sub applications within the State that meet all the eligibility requirements of the program. All eligible sub applications compete nationally for the PDM funds.

The PDM program is subject to the availability of appropriation funding, as well as any directive or restriction made with respect to such funds. The PDM program is subject to the anticipated reauthorization of the program beyond each Federal fiscal year.

Mitigation planning: \$1M cap on Federal share for new plans, not to exceed 3 years;

Mitigation planning: \$500,000 cap on Federal share for updated plans.

Mitigation projects: \$3M cap on Federal share, not to exceed 3 years;

Total State cap on Federal share is 15% of total appropriation in any year;

Information dissemination activities: not to exceed 10%, must directly relate to planning or project sub application;

Applicant management costs: not to exceed 10% and must be submitted by a separate management cost application; and

Sub applicant management costs: not to exceed 5%, and must be included in overall activity costs within the sub application.

## Community Advocacy and Services

### General Fund

### Appropriation Description

#### Community Advocacy and Services

This appropriation enables the division to educate and advocate on behalf of underrepresented Iowans. This includes collaboration with other state departments and agencies, helping them understand the impact policies have on marginalized Iowans. By working within government to remove barriers to success,

underrepresented populations can more fully contribute to the economy, culture, and social life of Iowa. The appropriation also enables the division to directly assist customers who request it. For example, by helping persons access interpreting services so they can receive healthcare, educating Iowans in the private sector about the value of employing persons with disabilities, or promoting laws and policies to eliminate discrimination and create equity, CAS staff offer individualized and responsive services that build a bridge between underserved and underrepresented Iowans and government.

## Child Support Recoveries

### General Fund

#### Appropriation Description

All states participating in the FIP/TANF and IV-E foster care programs must have a child support recovery program. CSRU locates staff across the State to ensure compliance with Federal and State requirements for establishment and enforcement of child and medical support. The State's required match for operating costs of the program is 34%.

CSRU establishes paternity in out-of-wedlock births so that two parents are legally responsible for the children, as well as establishing child support and medical orders, which creates the legal authority to collect support and enforce health insurance for children. Collections for public assistance families are assigned to the State to help reimburse taxpayer costs. Customers can apply to have child and medical support orders modified. There are also limited special services to facilitate access and visitation and other parental activities to address barriers to the payment of support.

## Civil Commitment Unit for Sexual Offenders

### General Fund

### Appropriation Description

The CCUSO program is established by Chapter 229A of the Code of Iowa which describes the civil commitment process. The court system, through a bench or jury trial, orders persons to be civilly committed and admitted to CCUSO. CCUSO is a secure facility located in Cherokee and provides highly specialized, extended-term treatment designed to address the identified mental abnormality of the patients court ordered to the program. At the beginning of SFY13 there were 98 persons in the program with 100 patients at the end of SFY13; it is estimated 108 individuals will be in the program by the end of SFY14. The program is designed to provide treatment

and motivation for behavioral change. There are five treatment phases providing cognitive-behavior therapy as well as a five-level system that provides increased privileges and responsibilities to motivate patients to participate in treatment and to remain free of problematic behaviors. The five-phase treatment program includes group and individual therapy, educational programming, physiological assessments, a transition program and a discharge planning unit that assists individuals in developing cognitive and behavioral skills so core needs can be met without sexual offending. The final phase, Phase 5, is the transition program where patients begin to live and work more independently with the goal of eventually residing in the community. CCUSO staff provide supervision, treatment and assessment as patients begin developing connections with community providers. Patients are released only after the court determines discharge is warranted.

## State Supplementary Assistance

### General Fund

### Appropriation Description

This appropriation provides funding for the State Supplementary Assistance (SSA) program. The SSA program assists individuals who meet all Supplemental Security Income (SSI) eligibility requirements and whose income is insufficient to pay for certain special needs. In Iowa, these needs are defined as

residential care, family life homes, in-home health-related care, dependent person allowance, mandatory supplement, blind allowance and supplement for Medicare and Medicaid enrollees. To meet the federal Maintenance of Effort requirement, the State Supplementary Assistance program must maintain minimum required payment levels. Failure to meet the State Supplementary Assistance Maintenance of Effort requirement jeopardizes the federal funding for the entire Medicaid program.

### General Fund

#### Appropriation Description

In 1995, the Legislature adopted SF 69, which committed the state to funding all of the projected growth for mental health, mental retardation and developmental disabilities services. The county is frozen as to the amount of property tax dollars levied to fund these services.

In SFY13, counties were relieved of the responsibility of providing the non-federal share of Medicaid mental health and disability services. Beginning in SFY13, this funding was appropriated to the Medical Assistance and MHDS Redesign appropriations to pay Medicaid MHDS costs previously incurred by the counties.

## MI/MR/DD State Cases

### General Fund

#### Appropriation Description

The state payment program funds mental health and disability services for adults with mental illness, intellectual disability, and/or a developmental disability. Prior to SFY13, the State Payment Program funded mental health and disability services for individuals who did not have a county of legal settlement. Beginning in SFY13, counties were relieved of the responsibility of providing the non-federal share of Medicaid mental health and disability

services. In SFY13, the General Fund appropriation for state cases was appropriated to the Medical Assistance and MHDS Redesign appropriations to pay Medicaid MHDS costs previously incurred by the counties. Beginning July 1, 2013, the legal settlement concept was replaced with county of residency so the majority of individuals served in the state payment program will have an identified county of residence. The county of residency is now responsible for funding non-Medicaid eligible services. The state payment program will fund services for individuals whose county of residency is unknown using Social Services Block Grant funding in SFY14.

## MHDS Equalization

### General Fund

### Appropriation Description

In SFY14, counties funded non-Medicaid mental health and disability services for adults with mental illness or intellectual disabilities. Beginning in SFY15, MHDS regions will be responsible for funding MHDS services. SF2315 established a process for equalization payments to be paid to coun-

ties in SFY14 and SFY15 for MHDS services. The code established a \$47.28 per capita base funding level. State general funds are paid to counties to equalize funding for MHDS services without increasing MHDS property tax rates in those counties below \$47.28 per capita. Counties with maximum levy amounts falling below this amount receive an equalization payment and counties above this amount are required to reduce their property tax levy down to \$47.28 per capita.

### General Fund

### Appropriation Description

This appropriation is a dollar for dollar reduction in the property taxes levied for the funding of services for persons with disabilities, using a base year amount established in 1995. The appropriation was transferred to the Property Tax Relief Fund. The

taxes on utilities sold by the Palo Energy Plant were also deposited into the Property Tax Relief Fund. Both were distributed to counties based on a specific formula. In SFY13, counties were relieved of the responsibility of providing the non-federal share of Medicaid mental health and disability services. Beginning in SFY13, this funding was appropriated to the Medical Assistance and MHDS Redesign appropriation to pay Medicaid MHDS costs previously incurred by the counties. (426B.2)

## State Housing Trust Fund

Local Housing Trust Funds (LHTF) and 40 percent awarded to specific affordable housing projects.

### Fund Description

Iowa Code requires 60 percent of available funds in the State Housing Trust Fund (SHTF) be awarded to

IFA currently administers the fund pursuant to an Annual SHTF Allocation Plan. LHTF are formal,

active and vital community-based organizations engaged in addressing impediments that cause communities to be less attractive. They collaborate and network with and receive support from local entities and leverage local resources, finances and talent from public and private sectors. Most operate county-wide or regionally. Offering a competitive state grant program encourages community leaders to organize eligible LHTF boards to apply for STHF program funds. Since July 2003 when Code 16.181 was enacted, cities, counties or regions have established nineteen IFA-certified LHTF boards.

To date, the monies have been spent for construction, rehab and preservation of single family and multi

family housing; owner-occupied rehab and repairs and emergency owner repair; repairs and maintenance of nonprofit owned units; operations and housing supportive services for nonprofit entities; down payment and closing cost assistance for first time homebuyers; funding for emergency shelters and transitional housing; housing for persons with disabilities; neighborhood-wide housing rehabilitation; gap financing for new subdivisions which offer affordable housing to working families; and, funding to provide downtown second-story affordable loft housing as a way to attract and keep young professionals in the community. At least 30 percent of funds must be used to assist extremely low-income households.

## ICN Fiber Redundancy - TRF

### Technology Reinvestment Fund

#### Appropriation Description

Consistent, reliable telecommunications services are a crucial lifeline for Iowa's government, secondary and post-secondary schools, libraries, Homeland Security support agencies, and federal agencies, all served by the Iowa Communications Network (ICN). Unfortunately, with all the efforts to provide reliable services, disasters or man-made incidents occur, disrupting the continuity of government, if appropriate

efforts are not made to minimize the vulnerability. These services are highly susceptible to crippling disruption, potentially jeopardizing the physical and mental welfare of Iowa citizens young and old. This offer calls for an investment to provide a redundant fiber ring outside of the tunnels that leaves the current tunnel based fibers in place as backup and connects all the Complex buildings with a second fiber entrance point along with necessary electronics, power and power backup facilities to minimize vulnerability and ensure continuity of operations for the Capitol Complex. The pricing includes the equipment and installation costs.

# IPERS Administration

## Mission Statement

To provide cost-effective and sufficient core retirement benefits and services exclusively to members and beneficiaries for their care in retirement, to reduce personnel turnover and to attract competent men and women to public service in the State of Iowa.

IPERS, a state agency in the executive branch of state government, has provided a pension plan for Iowa's public employees for over 50 years. IPERS is a defined benefit plan funded through member contributions, employer contributions, and investment income.

## Description

IPERS is the largest public pension plan in Iowa with over 340,000 members, almost 2,200 participating public employers, and a trust fund with a market value of over \$24.8 billion at the end of fiscal year 2013. Approximately 165,000 members are active members who are working for a public employer and contributing to IPERS. There are about 105,000 retired members. IPERS membership also includes inactive members who no longer pay into the system but still have money in the trust fund.

By law, most individuals become members of IPERS when they begin employment at any IPERS-covered public employer, which includes schools, cities, counties, state government, and other government agencies. IPERS members range in age from 16 to over 100. Members live in all 99 Iowa counties and most benefit recipients stay in Iowa when they retire.

# Law Enforcement Academy

## Mission Statement

Professionalism through training.

## Description

The Iowa Law Enforcement Academy provides the best basic, specialty, and supervisory training to Iowa peace officers, jailers, and telecommunicators. This training includes instructor certification in several areas such as firearms, defensive tactics, driving, and jail training. The training is conducted both at the Academy located on Camp Dodge in Johnston as well as across the State of Iowa. More than 5,600 law enforcement personnel were trained in fiscal year 2004.

The Academy is the sole regulator of law enforcement, jailer, and telecommunicator training in Iowa.

The Academy oversees Level I regional basic training academies at the Des Moines Police Department, the Cedar Rapids Police Department, and the Department of Public Safety, plus two Level II short program basic training academies at Hawkeye Technical Community College and Western Iowa Technical Community College. The staff psychologist conducts psychological and cognitive testing for those people being hired in all law enforcement agencies and for those being considered for promotion in the Sheriffs' Offices. The Academy sets the standards for continuing education requirements for law enforcement personnel as well as the standards for hiring and training of Iowa reserve peace officers. The Academy is responsible for certifying all peace officers in the state of Iowa and for decertifying those officers who violate established standards of behavior for Iowa peace officers.

## Legislative Branch

### Mission Statement

The legislative branch creates laws that establish policies and programs.

### Description

The legislative authority of the State is vested in a General Assembly consisting of a fifty member Senate and a one hundred member House of Repre-

sentatives. The General Assembly meets annually commencing on the second Monday in January. Each House sits upon its own adjournments; keeps a journal of its proceedings; publishes the same; determines its rules of proceedings, punishes members for disorderly behavior; and, with two thirds consent of its members, can expel a member. It has all powers necessary for a branch of the General Assembly of a free and independent state.

## Parole, Board of

### Mission Statement

Comprehensive and efficient consideration for parole and work release of offenders committed to the department of corrections. Expeditious revocation of paroles of persons who violate release conditions. Careful consideration of victims opinions concerning the release decisions. Quality advice to the governor in matters relating to executive clemency. Timely research and analysis of issues critical to the performance of the board of parole.

### Description

The Board of Parole was established in 1907 by the 37th General Assembly. The Board is composed of one full-time chairperson, one full-time vice-chairperson, and three per diem members who are appointed by the Governor and confirmed by the Senate for staggered four-year terms. The Board is directly responsible to the Governor, and the chairperson serves at the pleasure of the Governor. During the 1998 legislative session, the General Assembly funded a full-time vice-chair position to assist with the administrative responsibilities of the Board. The

Board has its own support staff but receives administrative support services from the Department of Corrections.

The Iowa Board of Parole's mission is to reintegrate offenders into the community that can be released from prison without detriment to the public or themselves.

To achieve the mission, the Board:

Performs objective risk evaluations for prison inmates, reviews all eligible parole case files annually, holds hearings with eligible inmates, and selects viable candidates for conditional release on parole and work release.

Revokes the conditional release and returns to prison those offenders that fail while on parole and work release.

Notifies victims of relevant information not less than 20 days before a parole hearing, so victims' opinions may be considered when making parole and work release decisions. Advises the Governor on matters of executive clemency.

## Public Defense, Department of

### Mission Statement

Provide units and equipment to protect life and property and come to the aid of Iowans in a time of need, to preserve peace and order, and to insure public safety for the citizens of Iowa.

### Description

The Iowa National Guard is a dynamic organization operating in an ever-changing environment. The Iowa Army and Air National Guard are organized under Departments of the Army and Air Force tables of organization and equipment, and are trained and equipped in accordance with Department of Defense policies. Our primary purpose is to train and be able to deploy combat ready organizations and units to respond to war and national emergencies. The Iowa National Guard and the Homeland Security and Emergency Management Division are the primary organizations in state government for responding to and mitigating emergency situations in Iowa. Through the National Guard's unique peacetime status of being under the state governor's control that is provided by the US Constitution, the National Guard is a primary response force for dealing with emergencies and natural and man-made disasters that

may occur in the state. We have over one hundred units statewide that are trained and equipped to perform a federal wartime mission and are available to respond to the needs of the citizens of Iowa. We collectively have a vast array of key customers. This wide variance is due to the National Guard's three missions (federal, state, and community) and the wide span of commands and jurisdictions in which we operation to accomplish our missions. Our customers include, however, are not limited to:

- War fighting combatant commanders, the United States Forces Command, and the National Guard Bureau.
- The governor and citizens of Iowa, all state agencies and law enforcement agencies, civilian businesses, not-for-profit entities, media, and service organizations.
- The United States Training and Doctrine Command, National Training Center, Joint Readiness Training Center, 1st and 5th United States Armies, Air Combat Command, and military organizations and units of all services.
- The Department of Homeland Defense, Federal Emergency Management Agency, and law enforcement agencies

## Public Safety, Department of

### Mission Statement

Provide public safety and criminal justice services that allow citizens and businesses to enjoy personal freedoms and economic growth opportunities in safe communities.

### Description

The Iowa Department of Public Safety is the state law enforcement agency, created by Iowa Code Chapter 80. It includes the Iowa State Patrol, the Iowa Division of Criminal Investigation, the Iowa Division of Narcotics Enforcement, the Iowa State Fire Marshal, the Capitol Police Division, and Administrative Services Division, and the Office of the Commissioner. The Department was created on July 1, 1939.

The Department works in conjunction with federal, state and local jurisdictions of the criminal justice community to provide for the safety of persons living in, or traveling through the State of Iowa.

The Iowa State Patrol provides for the safety of the motoring public through the enforcement traffic laws,

through prevention and education efforts directed at driving behavior and through the operation of the state radio communications system. The Division of Criminal Investigation assists local jurisdictions upon request with the investigation of crimes against persons and crimes against property for which the local jurisdiction may lack the expertise to solve the case. DCI is responsible for ensuring the integrity of Iowa's gaming industry through enforcement and regulation as well as providing forensic services to most jurisdictions through the criminalistics laboratory. The primary mission of the Narcotics Enforcement Division is the reduction of supply and demand of illicit controlled substances through specialized enforcement and training. The State Fire Marshal's Office is charged with conducting fire safety inspections of elder care and day care facilities, as well as with the investigation of fires of suspicious origin and explosives cases. The Division of Administrative Services pays all financial claims against the Department, administers the Iowa criminal justice information system and the Peace Officers' Retirement System, and licenses all private investigative and private security agencies doing business in Iowa.

## DPS Fire Marshal

### General Fund

### Appropriation Description

This Division is the oldest of the five divisions within the Department of Public Safety, established in 1911. Through promotion and enforcement of fire safety regulations, training, building code provisions, and arson investigations this division helps reduce the loss of life and property by fire. Fire safety code inspections are conducted in a variety of facilities ensuring compliance with both federal and state laws and rules. Those facilities include nursing homes, child care facilities, schools, colleges, hotels, intermediate care facilities and any other building where the public congregates. Arson Investigation Bureau Special Agents are responsible for determining the cause of fires statewide. These agents investigate suspected arson fires along with bombings and other

explosive related incidents. Several agents in the division are also members of the Clandestine Lab Emergency Response Team. The Division is also charged with ensuring the safety and accessibility of buildings. This is accomplished by review and approval of factory-built structures and mobile homes. In addition to reading plans, the bureau oversees enforcement of handicapped accessibility and energy requirements of the State Building Code. The division is responsible for the preliminary review and approval of plans submitted for above ground petroleum storage tanks and L.P. gas installations.

The Fire Service Training Bureau's mission is to provide quality training and education for Iowa's fire and emergency services. Services are provided in Field Programs, Certification Programs, Business and Industrial Programs, Conference, and Research and Development.

## Appropriations Detail

### SUI - General University

#### General Fund

#### Appropriation Description

The University of Iowa is a comprehensive research university with a particular distinction in the arts, humanities, and sciences; a world-class academic health center, and a wide array of exceptional professional programs. The University competes for the best faculty and the most talented graduate and professional students. In pursuing its mission of teaching, research, and service, the University seeks to advance scholarly and creative endeavor through leading edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education and to the Iowans, the nation, and the world; and to educate students for success and personal fulfillment.

The Higher Education Operating Appropriation Request for SUI totals \$230,923,005 and is comprised of the following components that:

--Continue FY 2014 recurring state appropriation levels of \$221,041,351.

--Maintain educational excellence, promote student success, and keep tuition affordable with incremental funding of \$8,881,654.

The strategic plan identifies four complementary, mutually supporting areas in which to invest for accelerated advancement: Student Success, Knowledge and Practice, New Frontiers in the Arts, and Better Futures for Iowans. Incremental funds for FY 2015 will further advance these strategic priorities, while maintaining continued distinction in the core missions of teaching, research, and service.

The University of Iowa expects to serve more Iowans at all levels during FY 2015, while also improving the quality of the educational experience and career prospects. This will require sustaining state support as well as reallocations between programs, and continued savings through technology and innovation.

## SUI - Oakdale Campus

### General Fund

### Appropriation Description

The Oakdale Campus supports a variety of academic, research and service functions. The buildings on this campus support laboratory research functions, painting studios for the School of Art and Art History, the Technology Innovation Center, the State Hygienic Laboratory and a variety of other activities. Oakdale provides services including transportation, communication, library services, and intercampus computer capabilities to integrate the Oakdale Campus as a vital component of the University main campus. Plant Operations provide maintenance for the various Oakdale Research facilities and the upkeep of the 80-acre campus. An effort is made to provide a productive environment for programs from laboratory services and health care to business operations and research. The Housekeeping and Security Program maintains the nearly 400,000 plus square feet of facilities on the Oakdale Research Campus.

The FY 2015 operating appropriation request for SUI's Oakdale Research campus totals \$2,256,528 and is comprised of the following components:

--Continue FY 2014 recurring state appropriation levels of \$2,186,558.

--Incremental funding of \$69,970 to more adequately fund O&M costs for the Campus.

The appropriation for this unit partially funds the operations and maintenance costs of the space. The appropriation has declined from \$2.9M to \$2.2M over the last ten years despite a rise 20% increase in O&M costs. The General Education Fund of the University of Iowa cannot continue to absorb these costs without additional state support. The University has invested capital in innovative and energy savings utilities for the Oakdale campus to reduce costs, but is insufficient without state investment to maintain this vital campus.

## SUI - Hygienic Laboratory

### General Fund

### Appropriation Description

The State Hygienic Laboratory (SHL) statutorily provides analyses and investigations in the areas of disease detection, newborn and maternal screening, environmental quality and disaster/terrorism response, as well as other services that provide state of the art scientific and medical determination, education and discovery to maintain quality of life for Iowans. It is one of only two state public health laboratories in the nation housed by law within the state's university system.

The operating appropriation request for the SHL totals \$4,543,499 and is comprised of the following components:

--Continue FY 2014 recurring state appropriation levels of \$4,402,615.

--Incremental funding of \$140,884 to more adequately fund operational costs of the Lab.

Public health laboratories are expected to develop and implement new analytical systems to provide state-of-the-art disease surveillance. There have been significant discoveries and growth in new detection technologies that SHL needs to adopt particularly in the areas of bacteriology and virology. Of interest is investment in new instrumentation which analyses biomolecules and organic molecules to identify bacteria, fungi and viruses. High throughput systems such as these will increase the laboratory's capability to provide accurate identification of causes of disease in a shorter amount of time, allowing for quicker medical treatment and decreased health care costs, reduced labor cost/test, increased staff productivity and decreased operational costs.

## SUI - Family Practice Program

### General Fund

### Appropriation Description

The Statewide Family Practice Training Program provides financial, educational, and technical support to a network of seven community-based residencies that train physicians in the specialty of family practice. The residencies are dispersed into seven regions of the state to help improve the geographic distribution of family practice graduates and physicians in general.

The program has an enrollment of 140 residents over the three-year residency, with approximately one-third of the trainees graduating each year. More than 30 medical colleges are represented in the trainee complement.

The operating appropriation request for the program totals \$1,845,489 and is comprised of the following components:

--Continue FY 2014 recurring state appropriation levels of \$1,788,265.

--Incremental funding of \$57,244 to more adequately fund operational costs of the Lab.

This program is a crucial asset to the health status of Iowans and has achieved continuous recognition for the past 25 years. It is Iowa's principal source of new family physicians. During the past 10 years, 68% of the family practice graduates entered Iowa practices, nearly half going to communities with populations under 10,000. The program has now attracted approximately 750 graduates into Iowa communities. This highly successful program is one of the reasons the University of Iowa's College of Medicine continues to rank among the nation's top five medical schools in producing graduates who enter family practice careers.

## SUI - Specialized Children Health Services (SCHS)

### General Fund

### Appropriation Description

SCHS provides statewide community based provider and caregiver consultation and care coordination for Iowa's children and families with specialized health care needs. Programs include statewide childhood cancer treatment service; a statewide rural comprehensive care service for hemophilia patients and a statewide program to monitor infants at risk of physical and developmental problems. These programs are designed to support the child's care in their medical home. The University of Iowa Hospitals and Clinics' staff provides individualized medical evaluation and subsequent consultation to community providers to support medical care of the child within the local community.

The operating appropriation request for SCHS totals \$680,559 and is comprised of the following components:

--Continue FY 2014 recurring state appropriation levels of \$659,456.

--Incremental funding of \$21,103 to more adequately fund operational costs of the Lab.

The funding for these three programs creates access for especially vulnerable populations in Iowa to highly specialized pediatric services in a cost-effective manner. Community physicians who provide local care have access to highly-trained specialists for consultation and comprehensive management of pediatric cancer and hemophilia. It provides an infrastructure that maintains the working relationships between UIHC specialists, local physicians, families and other care providers who need support, direction and resources to successfully manage and cope with these conditions. These medical relationships foster optimal management of what can be life-threatening conditions.

## SUI - Accelerating Iowa's Knowledge Economy

### General Fund

#### Appropriation Description

SUI asks for \$3M in appropriations for each of the next three years to launch a statewide center of excellence in data management, business analytics and computational research and development. The center will focus on addressing the unmet data needs of Iowa businesses as well as faculty researchers, while advancing the educational programs needed to fill Iowa's IT workforce pipeline. State funds will be used to support the infrastructure (hardware, software, etc.) and staffing at regional engagement centers. An equal amount is planned for investment through real-

located funds by the SUI to make this possible; in FY 2014, FY 2015, and FY 2016, SUI will reallocate significant recurring resources into faculty and staff positions.

This build up in human expertise, along with the necessary technical infrastructure, will support the data needs of the university's significant research enterprise while simultaneously providing a wide range of data management capabilities with relevance to Iowa businesses. To better engage and serve Iowa businesses, the center will include regional engagement centers across the state, with the initial two centers located in Des Moines and Council Bluffs. The centers will draw on faculty, student and staff skills from the center's home base at SUI.

## SUI - Belin-Blank Academy

### General Fund

### Appropriation Description

SUI proposes to establish a STEM (Science, Technology, Engineering and Math) Academy housed at the SUI's Belin-Blank Center. The Academy will provide accelerated, residential learning opportunities for Iowa youth who are advanced in their educational pursuits and demonstrate an interest in STEM subjects. The proposed academy expands upon the state-funded K-12 regional program managed by UNI. The request is for \$1,500,000 (\$500k in each of the next 3 years) to pay for creation and launching of a pilot academy and would cover student scholarships, faculty and staff salaries, and materials. The Academy will serve to retain Iowa's high-ability students.

The Academy will integrate several long-standing programs that have strong math and science components including: the National Academy of Arts, Sciences, and Engineering which is an early entrance

program for high school juniors; the Iowa Online Advanced Placement Academy; and the Secondary Student Training Program.

The proposed Academy will be an on-campus, academic year program that offers high ability, high school-aged students a residential experience that blends the final two years of their high school experience and the first two years of college. The Academy will be supported by faculty in Engineering, Education, Liberal Arts and Sciences, Medicine, and Public Health.

Much of the infrastructure for the Academy is in place. However, there is considerable new planning needed to augment the new dimensions. A grant of \$500,000 for three years is requested to pay for creation and launching of a pilot academy and to cover student scholarships, faculty and staff salaries, and materials. Longer term continuation of this program for Iowa students will be considered during this pilot program.

## ISU - General University

### General Fund

#### Appropriation Description

ISU has a long history of providing a superb experience for its students and graduating students who are creative, technologically adept, and culturally informed for success in the future. Overall enrollments have been strong, and the science-based curricula in engineering, agriculture and life sciences, and human sciences have been especially appealing to incoming students and their families.

Enrollment increased nearly 19% from 2007 to 2012, half of that growth occurring in the past two years. Fall 2013 enrollment is expected to set another record.

ISU prepares students to create their own job and jobs for others -- and those students deliver. During 2012, graduates enjoyed a 94% placement rate within six months of graduation; 67% of Iowa students, and 23% of nonresident students, remained in Iowa to begin their careers.

Incremental funds will be used to strengthen undergraduate, graduate, and professional programs with emphasis on student success, research discoveries

that can be translated to the marketplace, and outreach across the state to strengthen communities.

Iowa companies and non-profits are engaged on ISU's campus in public-private partnership, benefiting their operations and providing students with practical learning experiences. To continue serving Iowa as a destination of choice for education, ISU must maintain faculty/student ratios, strengthen student success services such as learning communities and academic advisors, improve classrooms through instructional technology that support the increasing use of online instruction and hybrid learning, and enhance tutoring and specialized learning support.

The Higher Education Operating Appropriation Request for ISU totals \$180,945,807 and is comprised of the following components:

--Continue FY 2014 recurring state appropriation levels of \$173,986,353.

--Maintain educational excellence, promote student success, and keep tuition affordable with incremental funding of \$6,959,454.

--Continue FY 2014 recurring state appropriation levels of \$3,762,636.

--Fund an incremental increase of \$237,364.

Strategic initiative funds are requested to complete the legislative intent of establishing a \$4M appropriation to support the state-wide mission and services of the Veterinary Diagnostic Laboratory, Iowa's only public veterinary diagnostic laboratory. Accredited by the American Association of Veterinary Laboratory Diagnosticians, the Lab processes 40,000-50,000 cases from livestock producers across the country and conducts about 1 million tests each year. The timely, comprehensive, high-quality diagnosis for diseases and toxicoses are critical to serving the state's livestock industry.

## ISU - Agricultural Experiment Station

### General Fund

#### Appropriation Description

The Experiment Station's advances in biological, physical and social sciences have contributed greatly to Iowa. Experiment Station research and ISU Extension not only help Iowa remain a world leader in food production, they address societal issues linked to agriculture, economic development, life-science frontiers, the environment, public policy, and communities. Experiment Station research makes up a significant portion of ISU's annual patent disclosures.

Additional state funding for the Experiment Station will be leveraged through the success of ISU agricultural scientists in competitive external funding awards. Over the past three years, the Experiment Station has received more than \$137 million in contracts and grants and ISU ag scientists received nearly \$20 million in fed grants for research addressing corn cropping systems, bioplastics technology, corn genetics, biomass yield traits, natural variation in corn genetics, nutrient utilization and feed efficiency of pigs, and agricultural policy. State resources also are significantly leveraged by invest-

ments in research made by private industry and foundations.

The operating appropriation request for ISU's Ag Experiment Station totals \$30,923,457 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$28,111,877.

--Incremental funding of \$2,811,580 to deliver new levels of innovation and profitability to Iowa agriculture.

New support for Iowa's agricultural research portfolio will help to attract new industry and top students to be mentored as the next generation of ag scientists, entrepreneurs and innovators, and meet the ever-growing industry demand for ag graduates. Additional funding will allow focused investments that enable Experiment Station scientists to address innovation in four key areas: Animal agriculture and crop production research, clean water and long-term soil productivity, human nutrition and wellness, & agricultural innovation.

## ISU - Cooperative Extension

### General Fund

#### Appropriation Description

ISU Extension works across Iowa State University colleges, throughout the 99 counties, and with external partners to improve quality of life in the state. Extension and Outreach is seeing an increasing demand for its programs. Particularly programs that serve small business owners, grow existing industry, and enhance rural communities. In addition, Iowans want clean water, a healthy environment, and a safe, sustainable, and affordable food supply. Extension and Outreach programs align with the Governor's Healthiest State Initiative to help Iowa become the healthiest state in the nation. K-12 youth outreach develops Iowa's future workforce and helps fight the "brain drain" by connecting youth with opportunities here in Iowa.

The operating appropriation request for ISU's Coop Extension Service totals \$19,180,257 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$18,266,722.

--New incremental funding of \$913,535 to leverage with matching funds.

Based on past investments, Extension and Outreach expects to leverage every \$100,000 in new state funds with \$180,000 in new federal matching funds, grants, fees and gifts to generate a projected \$ 2.8 million of impact and 28 new jobs throughout Iowa. For every \$100,000 of new funds, an estimated three additional staff will be hired to address growing demands and increase the depth and reach of work with families, businesses, and communities in all 99 counties across the state.

## ISU - Leading the BioEconomy

### General Fund

#### Appropriation Description

A bioeconomy provides sustainable sources of food, fuel, and manufactured products to society through agriculture. Advances in the biosciences and engineering facilitate higher yielding crops; reduce inputs for production of beef, dairy, poultry, eggs, and pork; enables the sustainable manufacturing of biorenewable chemicals; develops materials and finished products; develops advanced drop-in biofuels; and develops more efficient uses of energy.

Over the past decade, modest investments of ISU resources were leveraged with state, federal, and private support to invest \$50 million in new research infrastructure and over \$150 million in biorenewable and biosciences research programs. As a result, ISU is now widely recognized for its world-class research facilities, and ISU faculty are internationally recognized for their leadership in biorenewables.

ISU's investment also changed how its faculty competes for external research dollars. Increasingly, faculty members organize into multi-disciplinary teams and seek out large grant applications with remarkable success including the NSF Engineering Research Center for Biorenewable Chemicals (\$36 million), the USDA-supported CenUSA project (\$25 million) to develop new biomass, and the NSF Experimental Program to Stimulate Competitive Research project (\$20 million) focused on advanced renewable energy and energy efficiency technologies. Our faculty has also learned how to work closely with industry as is exemplified by the six-year master contract with ConocoPhillips and the company consortium that supports the Biobased Industry Center.

ISU, with strengths in agriculture, engineering and science, and its world-class laboratories and pilot-scale research facilities, is well positioned for this kind of translational research.

The requested \$7.5M will expand Iowa's leadership role in the bioeconomy and will result in economic development and job creation in Iowa.

## ISU - Leopold Center

### General Fund

#### Appropriation Description

The Leopold Center is a research and education center with statewide programs to develop sustainable agricultural practices that are both profitable and conserve natural resources. It was established under the Groundwater Protection Act of 1987 to conduct research into the negative impacts of agricultural practices; to assist in developing alternative practices; and to work with ISU Extension to inform the public of Leopold Center findings.

The Leopold Center has awarded more than 500 competitive grants since 1988. Leopold Center competitive grants are available to researchers and educators at all Iowa colleges and universities, and to investigators at private, nonprofit agencies and foundations in the state. These awards often act as seed money to initiate work for which other larger sources of funding then become available. The Center collaborates with ISU Extension and other university, state,

and local organizations to communicate research findings.

The Leopold Center will use additional funds for research and extension to enhance the sustainability of Iowa's agriculture and the agricultural economy. Specifically, additional funds would be targeted to research related to nutrient management, water conservation, water quality, soil conservation and in marketing and food systems that meet Iowa-grown food aims in the Iowa Local Food and Farm Initiative.

The operating appropriation request for ISU's Leopold Center totals \$410,134 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$397,417.

--Incremental funding of \$12,717.

## ISU - Iowa Nutrient Research Center

### General Fund

### Appropriation Description

The Iowa Nutrient Research Center, established by the 2013 General Session, will respond to the need for continued research and innovation to address Iowa's water quality needs. Nutrient loading to Iowa's waterways is a critical concern for the health of Iowa's people and environment. The Center takes a science-based approach to nutrient management, with initial research to evaluate the performance of current or emerging nutrient management practices and to develop new practices for reducing nutrients in waterways. The center director at Iowa State, with input

from the center advisory council, leads efforts to enhance research conducted by scientists across several disciplines and to support collaborative work to help the state meet its nutrient management goals.

The operating appropriation request for ISU's Nutrient Research Center totals \$1,548,000 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$1,500,000.

--Fund an incremental increase of \$48,000.

## UNI - University of Northern Iowa

### General Fund

#### Appropriation Description

UNI's mission is to provide transformative learning experiences that inspire students to embrace challenge, engage in critical inquiry and creative thought, and contribute to society. The focus is educating Iowans who tend to stay in Iowa to work. As the state's comprehensive university, UNI focuses on educating Iowans who tend to stay in Iowa to work and live. Of alumni who graduated in the last ten years, 75% have stayed in Iowa.

Approximately 90% of the enrollment is resident students who pay significantly lower tuition rates than non-resident students. With the resulting high dependence on state appropriations, the state budget reductions implemented during fiscal years 2009-2012 have had a disproportionate impact to the operating budget. Adding to UNI's financial challenges, resident tuition was frozen (0% increase) for FY 2014.

The 2013 GA responded to UNI's needs with \$10M in one-time funding. The FY 2015 request includes making the one-time \$10M permanent and an incremental \$3.7M to promote affordability again in FY 2015. UNI will use the state funds to promote student affordability and accessibility, enrollment management, enhance undergraduate education and student success, lead the nation in PreK-12 education, and enhance information technology.

The Higher Education Operating Appropriation Request for UNI totals \$96,951,732 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$83,222,819.

--Make permanent the \$10M in one-time funds approved during the 2013 session.

--Maintain educational excellence, promote student success, and keep tuition affordable with incremental funding of 3,728,913.

## UNI - Math and Science Collaborative

### General Fund

### Appropriation Description

Since FY 2009, the universities have worked as a team to implement the STEM initiative. This effort has grown to become the Governor's STEM Advisory Council as managed by the Iowa Mathematics and Science Education Partnership (IMSEP). The request is for continued funding at the current level.

STEM workers drive our nation's innovation and competitiveness by generating new ideas, new companies and new industries. Over the past 10 years, STEM jobs grew three times as fast as growth in non-STEM jobs. The STEM workforce will remain central to our economic vitality well into the future, contributing to innovation, technological growth, and economic development. Maintaining U.S. scientific and technological leadership is essential to the future of our country. However, the United States is facing a critical talent gap in science, tech-

nology, engineering and math, and is not keeping pace with foreign competition.

STEM jobs require post-secondary training, but Iowa ranks below the national average in percent of community college and university enrollees majoring in STEM (12% vs a national average of 15%).

Governor Branstad's Executive Order 74 created the Governor's STEM Advisory Council. The council's overarching goal is to boost student interest and achievement in science, technology, engineering and math (STEM), so our young people have more career opportunities and our state's economy is more robust.

The operating appropriation "flat-funded" request for UNI's Math & Science Collaborative totals \$5,200,000 and is comprised of the following component:

--Continue FY 2014 recurring state appropriation levels of \$5,200,000.

This program is the only real estate program in the state leading to a bachelor's degree. Program graduates have a strong impact in the real estate industry in Iowa, supporting not only their individual organizations, but their communities as well. The real estate industry is a key component of economic development in both rural and urban communities in Iowa, and graduates play a significant role as lenders,

brokers, developers, appraisers, property managers, and attorneys.

The operating appropriation request for UNI's Real Estate Education totals \$129,312 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$125,302.

--Incremental funding of \$4,010 to support increased costs of the program.

## UNI - Recycling and Reuse Center

### General Fund

#### Appropriation Description

The RRTC assists Iowa manufacturers in the research and development of products containing recycled content materials through the Materials Innovation Service, a program developed in cooperation with Recycle Iowa. Iowa companies that are replacing mainstream materials with new and innovative composites such as cast metal, plastics, and biomaterials have affordable access to the latest in mechanical, physical, and chemical properties testing for the purpose of by-product reutilization. The RRTC works with representatives from Iowa's business and industry community to promote recycling activities in Iowa and to facilitate cooperative efforts among Iowa industries and academic institutions.

The operating appropriation request for UNI's Recycling & Reuse Technology Transfer Center totals \$180,864 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$175,256.

--Incremental funding of \$5,608.

The RRTC supports applied sustainability research for community outreach, patent applications and support for green business enterprises. Through the RRTC's project reports, articles and outreach to business, industry, communities and citizens, the Center reaches several thousand individuals each year. Approximately 10 student interns work each year on projects concerning sustainability, recycling, solid waste management and its influence on health and water quality, and other related issues. These hands-on experiences raise student awareness of environmental challenges and issues important to the future of Iowa.

Presently, the Center is only able to respond to about 20% of its annual calls for research proposals, and outreach activities have been limited.

## ISD - Iowa School for the Deaf

### General Fund

#### Appropriation Description

ISD promotes personal, individual excellence by providing comprehensive educational programs and services, delivered by highly qualified personnel with in-depth training for understanding the unique needs of these students. ISD prepares students for community participation as successful and productive adult citizens, with skills comparable to their hearing peers.

ISD will provide outstanding educational opportunities for students who are deaf or hard-of-hearing, and is a resource for Iowa's school districts, incorporating specialized programming and services with intensive, individualized instruction and innovative use of technology, high expectations and standards for each student, focused on language and literacy skill development commensurate with that of hearing peers. Decision-making for individual student program development is based on comprehensive, integrated data collection and analysis of student achievement. ISD does not charge tuition or collect property taxes, thus is dependent on state funding to ensure that these services are available.

The funding request for ISD totals \$9,391,859 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$9,030,634.

--Incorporate a 4% increase (same as allowable growth) on state operating appropriations of \$361,225.

The Special Schools' request will support the implementation of strategic goals to increase the number of students meeting or exceeding the state academic standards in reading and mathematics and support student outcomes assessments programs advancing student achievements of identified learning goals.

The Board of Regents has approved the development and implementation of a pilot Regional Program for students who are deaf to begin in the Fall 2014. A portion of this incremental funding request will support the initial pilot program along with local district special education resources.

## SUI - Economic Development

### General Fund

#### Appropriation Description

The Center for Advanced Drug Development (CADD) offers contract analytical services to the pharmaceutical and biotechnology industry. It offers the unique capability to produce under contract limited quantities of new medicines under FDA regulations. The capacity is particularly valuable to firms wishing to bring new products through clinical trials.

The University of Iowa Research Park (UIRP) is home to start-up and technology-based businesses. The BioVentures Center (BVC), a wet lab business incubator, is located in UIRP and currently home to 13 start-up companies. An additional 9 companies are located on research park land. As of FY 2013, there were approximately 1200 employees that worked at the research park. Faculty-based startups, graduating student entrepreneurs, and community entrepreneurs and businesses benefit greatly from locating their ventures at the research park. The planned Kirkwood CC/SUI STEM education facility will provide unique opportunities for technical education and collaboration with UIRP companies and SUI research facilities.

The Technology Innovation Center (TIC) provides office space and a nurturing business environment and critical services to new technology-based ventures. Since 1984, more than 100 technology start-ups have become center tenants. Ten tenants are currently in the center and over 50 tenants have met their business goals upon graduating from the center. Joint programming efforts between all University incubation programs and economic development and entrepreneurial organizations in the region should result in an acceleration of new company formation and existing company expansion.

The operating appropriation request for SUI's Economic Development programs total \$215,976 and is comprised of the following components:

--Continue FY 2014 recurring state appropriation levels of \$209,279.

--Incremental funding of \$6,697 to help ensure SUI's continued support of new start-up companies.

## IBS - Iowa Braille and Sight Saving School

### General Fund

### Appropriation Description

Services are provided directly to students as well as technical assistance, consultation and collaboration with other educators serving students that are blind or visually impaired. All students are served each year by Iowa's Educational Services for the Blind and Visually Impaired in partnership with Iowa's local school districts, AEAs, and Department for the Blind. Many students attend summer programs either regionally or on campus. Some students are involved in short-term placements on campus to develop specific skills in a focused educational environment. The Statewide System for Vision Services has enhanced the efficiency and accessibility of programs and services for Iowa's children.

## BOR - Resource Center - NW Iowa Regents Resource Center

### General Fund

### Appropriation Description

During the past two years, meetings were held with community leaders in Sioux City about the need for a new educational model which would create a Regents Center on the campus of Western Iowa Technical Community College to serve the educational needs of students in the Siouxland Area. Universal support led the Board of Regents to request creation of the Northwest Iowa Regents Resource Center; authorizing legislation was signed into law by Governor Branstad in May 2013.

Council This increase will support the establishment of the Center on the campus of Iowa Western Technical Community College and will pursue partnership with Northwest Iowa Community College. The increase will be used for faculty/coordinator salary, office equipment, telecommunications support, rent, promotion, and other similar expenditures.

The operating appropriation request for the new Northwest Iowa Regents Resource Center totals \$278,550 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$76,114 (after redistribution approved by the Board of Regents and authorized in Code) originally appropriated to the Quad Cities Graduate Study Center.

## UNI - Applied Sciences Program

### General Fund

#### Appropriation Description

Establish Bachelor of Applied Sciences degree for an initial cohort of 160 community college graduates. This degree program will serve the needs of working Iowans, address educational needs for place-bound Iowans in both rural & urban communities, enhance community college partnerships, provide for a better workforce (including advanced manufacturing), & strengthen skills available to business & industry within Iowa. In addition, the University will pursue programming & funding partnerships with business & industry in Iowa.

More than 540,000 Iowans (nearly 35% of the state's population ages 25-64) have some college credit, but no Bachelor's degree (Lumina Foundation). On the average, an individual with a bachelor's degree earns 35% more than a person with an associate's degree, and 46% more than a person with some college, no degree (U.S. Bureau of Labor Statistics, 2012). In

cooperation with Iowa's community colleges, the UNI will address gaps in Iowa's educational attainment rates by providing a clear set of pathways to degree completion for individuals with some college, but less than a four-year degree. Options will include both campus-based and distance delivery. Emphasis will be placed on the creation of a Bachelor of Applied Sciences (BAS) program designed for students who hold an Associate of Applied Sciences (AAS) or an Associate of Science (AS) degree from a community college. The program will build upon the knowledge gained in these degrees while providing knowledge and skills in applied leadership, communication and critical thinking skills. Outcomes include greater earning power and opportunities of advancement for citizens throughout the state, enhanced community college and business and industry partnerships, a better prepared workforce (including the advanced manufacturing sector), and economic growth for the state.

The funding request is \$3 million over a two-year period.

## UNI - Entrepreneur Outreach Program

### General Fund

#### Appropriation Description

UNI proposes a combination of new and expanded services to better meet the needs of Iowa's entrepreneurs and small businesses. Services to be provided to entrepreneurs in all regions of Iowa and to expand the culture of entrepreneurship on the UNI campus are provided below.

**Business Concierge (BC)** - The BC team will serve as an objective entity to solve issues and get Iowa's small business owners through red tape and connected to the right people at the right time.

**Network Iowa** - a statewide liaison to assist small businesses is needed. For example, if a business owner receives a Targeted Small Business loan, the Network Iowa liaison will follow up to see if their needs were met and identify what is needed next.

**AppsLab** - The growing interest in mobile applications (Apps) is very similar to the demand for web-based technologies in the late 90s. Numerous organizations on campus see Apps as a way to contact and support their constituents. UNI has launched a pilot phase of an AppsLab where students and faculty explore the commercial potential of this technology.

**Local Foods Entrepreneurship Support** - numerous student and non-student entrepreneurs are interested in pursuing food-based businesses. Local food initiatives are supported by UNI outreach programs for growing and marketing fresh foods. ## ISU - Economic Development

### General Fund

#### Appropriation Description

IPRT is a group of scientific research centers at ISU. IPRT focuses research strengths on development of new technologies through interdisciplinary research in science & engineering.

SBDC's conduct research, counsel & train business people in mgmt, financing, operating small businesses, & provides comprehensive info services & access to experts in a variety of fields.

Research Park is a tech community & incubator of new & expanding businesses, providing material & human-resource rich environment for tech-based firms & research orgs.

The operating appropriation request for ISUs Economic Development programs total \$3,278,880 & is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$2,424,302.

--Fund an incremental increase of \$854,578 which includes \$777,000 in strategic funding for the Research Park (\$400,000) & the SBDCs (\$377,000).

The SBDCs have been operating on a very lean budget as a result of real declines in state & federal funding over the last 10 years. A recent SBA accreditation review found the SBDCs are poised for making substantial impacts on the state economy if additional funding is obtained. The review noted that with recent budget cuts at the state/federal levels left the program extremely lean & will have difficulty maintaining current service levels. The additional funding for the SBDCs will reverse the real decline in funding in 15 regional centers throughout the state.

ISU intends to provide the region's business community with access to a trained workforce, modern infrastructure, & the organizational assets needed to transfer intellectual property into marketable technologies and products. The Research Park does not have vacant space available for expansion & relocation. An expansion has been planned but now needs additional resources. Additional funding is being requested to increase prospect development, attract commercial services, & for additional staff to support the increase in tenants.

## ISU - Livestock Disease Research

--Incremental funding of \$5,531.

### General Fund

### Appropriation Description

Livestock Disease Research is conducted through the College of Veterinary Medicine on diseases of Iowa livestock in order to prevent the high financial losses to Iowa livestock producers that occur each year due to infectious livestock diseases. These funds are leveraged to receive additional funds from external sources for livestock disease research.

The operating appropriation request for ISU's Livestock Disease Research totals \$178,375 and is comprised of the following:

--Continue FY 2014 recurring state appropriation levels of \$172,844.

Incremental funds are requested for the Iowa Livestock Health Advisory Council (ILHAC) which was created to strengthen Iowa's animal agriculture by strengthening the livestock disease research program in the state. Funds from this special appropriation provide seed money for research projects, with priority given to those projects with significant potential for economic benefit for the livestock industry. Recently funded projects include: studying porcine reproductive and respiratory syndrome and influenza in pigs, E. coli and Clostridium spp. in poultry, lameness in beef and dairy cattle, mastitis in dairy cattle, pinkeye in cattle and viruses causing reproductive problems in sheep. This seed money has recently resulted in development of effective vaccines for porcine circovirus and laying hen peritonitis. Additional funding will allow more animal disease research projects to be funded in areas of highest importance to livestock producers.

## BOR - Tuition Replacement - Bonding

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The bonding program has enabled the Regents to finance critical academic constructions needs at Iowa's public universities through the public sale of long-term bonds. The General Assembly authorizes the sale of the academic building revenue bonds issued by the Board of Regents. Tuition replacement appropriations represent an ongoing commitment of the state to meet the debt service cost of Academic Building Revenue bonds.

The 2009 General Assembly authorized the Board to issue \$100 million in project proceeds of Academic Building Revenue Bonds to finance the repair, restoration, replacement, and mitigation of flood damaged buildings and facilities at the University of Iowa. The September 2013 bond issue was the second series of bonds issued for this purpose.

It was understood that this authorization would increase the tuition replacement request. The tuition replacement request for FY 2015 is \$29,735,423, an increase of \$1,867,648 from FY 2014 to cover the debt service due on the bonds. In addition, the current projected request for FY 2016 is \$31,181,075 and is based upon anticipated future issues.

## SUI - UIHC IowaCares Program

### IowaCare Fund

#### Appropriation Description

The IowaCare Program, initiated by the Iowa Department of Human Services on July 1, 2005, has benefited thousands of low-income Iowans without health insurance.

UI Hospitals and Clinics is committed to providing patient-focused care --available to every person, around the clock-- in an environment devoted to innovative care, excellent service, and exceptional outcomes. These three commitments identified in the strategic plan are the key drivers in drafting the FY 2013 operating budgets.

Achievement of each commitment will occur by following defined goals, strategies, and tactics.

#### Innovative Care

--Care Delivery

--Clinical Programs

Excellent Service

--Patient Satisfaction

--Referring Physician Satisfaction

--Staff, Faculty, & Volunteer Engagement

Exceptional Outcomes

--Safety

--Clinical Outcomes

With the implementation of significant changes to any program, and particularly one as complicated as IowaCare, there will likely be opportunities where adjustments become necessary to better achieve desired outcomes. UIHC requests the Board of Regents authorize its State Relations Officers to pursue adjustments as they become evident to enable the UIHC and its physicians to fulfill their role in the IowaCare program.

The funding request of \$27,284,584 maintains the funding for the University of Iowa Hospitals and Clinics to provide care under the auspices of the IowaCare program.

## Ag Land Tax Credit

### General Fund

### Appropriation Description

A standing limited appropriation to provide funds for the "Agricultural Land Tax Credit Fund" created under Section 426.1 of the Code. The fund was created to give credit against the tax on each tract of

agricultural land within the several school districts of the state in which the levy for the general school funds exceeds five dollars and forty cents per thousand dollars of assessed value. The funds are prorated if the appropriation cannot cover all credits in full. Beginning in FY'94, an appropriation of \$39,100,000 was made. Section 425A stipulates that the first \$10,000,000 be transferred to the Family Farm Tax Credit Fund.

## Printing Cigarette Stamps

### General Fund

#### Appropriation Description

A standing "limited" appropriation of \$115,000 for the purpose of printing cigarette stamps. The appropriation has been reduced by past across-the-board reductions. This Code language is somewhat contradictory to the Code requirement that all cigarettes sold in the State must have a cigarette stamp affixed. The Department does not believe that the Legislature ever intended for the Department to stop providing

cigarette stamps due to the lack of funding to print and pay for cigarette stamps. As a result of this underfunding, the Director is forced to either hold claims until a new fiscal year begins and a new appropriation is available or request a transfer of funds be made from another appropriation into this appropriation. Therefore, the Department is suggesting that Section 453A.7, Code 2001, be amended to read as follows: "There is appropriated annually from funds in the state treasury not otherwise appropriated, sufficient funds to carry out the provisions of this section." (453A.7)

# Veterans Affairs, Department of

## Mission Statement

To provide a continuum of care to Iowa's veterans and their spouses in an environment focusing on individualized services to enhance their quality of life.

## Description

Veteran Affairs is the department in state government that provides services to veterans and works to increase the public's awareness of veteran's issues. These services encompass two divisions (advocacy services and long-term health care). One division is the Iowa Department of Veterans Affairs administration office located at Camp Dodge. It provides services and support to veterans including education regarding their entitlements under state and federal laws and enhancing their awareness of outreach programs available to them. This division conducts two service schools of instruction each year for the Commissioners and County Directors of Veterans Affairs to update them on benefits for veterans. It also files all reports of separation (Form DD 214),

maintains 4 million records of Iowa veterans from the past four wars, maintains a database of veterans in nursing homes and determines if they have applied for federal Veteran's benefits, and processes and maintains all registration documents for Veterans buried in Iowa. A state aid program for War Orphans paid to a school of higher learning is provided. The second division located in Marshalltown is the Iowa Veterans Home. It delivers long-term health care services for eligible veterans and/or their spouses/widows. The Iowa Veterans Home has 750 operating beds comprised of three levels of care (nursing, domiciliary and infirmary) and offers 24 hour medical coverage. A full range of services is available including: Food and Nutrition Services; Pharmacy; Recreation Therapy; Transportation to medical appointments at the V.A. Hospitals & clinics; Contract Services (dentist; optometrist; dermatologist); Speech Therapy; Audiology; Physical Therapy; Occupational Therapy; Wheelchair Services; Activity Centers (ceramics, woodworking, arts and crafts, and library); Social Work Services; Pastoral Care; Psychology Services; and Psychiatry Services.

### Facility/Armory Maintenance (RIIF)

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Iowa National Guard consists of approximately 9,750 soldiers and airmen organized in over 100 organizations, units, and activities statewide. Several of our armories and facilities are aged beyond the point of supporting adequate training for our soldiers. The maintenance backlog to bring these facilities to an acceptable state of operations is beyond our budget expectations. New facilities that will support our units well into the 21st century are the most cost effective alternative to dealing without outdated facilities.

Heavy reliance is placed on the Iowa National Guard to provide trained and ready units to mobilize to support national emergencies and disaster relief requirements as well as provide support when disasters and emergencies occur in the State of Iowa.

Federal funding for these major maintenance projects is available at approximately 50%/50% federal/state funding. State of Iowa funding is required to complete these necessary repair and replacement requirements. The projects may include but are not limited to armory renovations, restroom upgrades, repair of boilers and furnaces, repair of roofs, parking lot repair, and door and window repair and replacement.

## ISU - Biorenewables Cmplx-Agricultural&BiosystemsEngineering

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Agricultural and Biosystems Engineering (ABE) facility is one component of the Biorenewables Complex which also includes the Biorenewables Research Laboratory, for which funds were appropriated in 2007. The Department of ABE is a major contributor of expertise in the bioeconomy program areas.

The Department of Agricultural and Biosystems Engineering is one of the University's strong programs and has the potential to be rated the top department of its kind in the country. This project, which will consolidate the Department's space in a single location from the current four locations, will replace outdated laboratories, classrooms and offices.

The Department plays a key role in serving several of the agricultural and bioeconomy industries of Iowa:

1. the farm machinery and power equipment business,
2. manufacturing, robotics, automation, and industrial hygiene and safety,
3. biofuels, biomaterials, and bioproducts,
4. natural resource management, including water resources and water quality management,
5. food processing and safety,
6. buildings with effective environmental and odor controls for livestock and poultry production, and
7. biological systems control and management.

The lack of quality space is limiting the Department's potential. During the last ABET accreditation visit, the Review Team commented, "Facilities have shown significant improvement since the last visit. However, concern exists that the program may not be positioned to meet the needs of the future without a significant facility renovation or expansion."

## UNI - Bartlett Hall Renovation/ Baker Hall Demolition

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

This project will provide for the renovation of Bartlett Hall (104,437 gross square feet), which was built in 1917 and 1924. The facility was designed as a residence facility; in 1986 a portion of the building was renovated to accommodate faculty and staff offices. The portion of Bartlett Hall which serves as a residence hall no longer provides a housing environment that meets student needs. The project will renovate the remainder of the building to house the departments (English Language and Literature,

Philosophy and Religion, Modern Languages, Psychology, and Sociology and Anthropology) currently located in Baker Hall, which would subsequently be demolished.

The renovation of Bartlett Hall for academic departments and demolition of Baker Hall will allow the University to decrease overall University building square footage and the associated utility expenses. This option will also bring the historically important building up to current standards and provide convenient and appropriate space for faculty and staff.

## SUI - Dental Science Building Renovation

### Rebuild Iowa Infrastructure Fund

### Appropriation Description

The University of Iowa College of Dentistry educates more than 80% of the dentists who serve the state of Iowa; it is thus imperative that the College remain up-to-date with respect to its teaching and laboratory facilities.

While numerous small scale renovations have allowed the College to remain at the forefront of

modern dental education, developments in the teaching, research, and practice of dentistry require a more significant and encompassing update to the facility. Modernization and enlargement of treatment, teaching, and research space to meet today's equipment and practice requirements call for critical changes to the way the building serves the needs of the College and State.

To remain an outstanding program in producing dental professionals and providing large scale clinical care, the aging facility must be updated to today's standards, thus eliminating long standing deferred maintenance.

## SUI - Pharmacy Building Replacement/Improvements

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The College of Pharmacy is the fourth oldest college of pharmacy in a state-supported university in the country and has educated pharmacists since 1885. The College has developed nationally and internationally recognized programs of research and patient care delivery. Admission to the program is extremely competitive; graduates are well prepared and in high demand following graduation. For the past ten years the College has had a 100% placement rate. Graduates of the College are in 95 of Iowa's 99 counties, providing needed services every day; in some instances, they are the only point of access to medical care. College of Pharmacy students must complete 1,600 hours of pharmacy practice experience to earn their PharmD degree; the economic impact of the work of these students is estimated at \$2.3 million annually.

The services College of Pharmacy graduates provide have changed dramatically since the construction of the original Pharmacy Building in 1961. The age, condition, configuration and outdated mechanical and electrical systems of the original building are constant strains on the quality and productivity of the College's faculty and students. (The facility consumes more energy than any other building on campus on a square footage basis.) To perfect clinical skills, small collaborative spaces are required for critical thinking, modeling and practice. This type of space does not exist in the current facility. As a professionally accredited program, the College is periodically reviewed for reaccreditation. A component of the accreditation review is the quality of its educational facilities.

The University proposes to replace the 1961 building as modernization of it cannot serve the intensive educational space needs of the College. In combination with new construction, the University intends to modernize the 1996 facility to meet current standards and expectations. The project would address approximately \$12.0 million of deferred maintenance.

## UNI - Schindler Education Center Renovation

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Schindler Renovation project is a key element in the University's vision of being known for innovative education and preparing students for success in a rapidly changing, globally competitive and culturally diverse world. The project is directly related to the University's Strategic Plan Goal 3, Lead the state and nation in pre K-12 education, including objectives, Focus educator-preparation programs on developing 21st century leader practitioners at all levels, and Re-examine and adapt educator-preparation programs, formal and non-formal, focusing on 21st century skills and knowledge and the use of technology.

The College hopes that all graduates of the College are technology savvy since more than 100 districts in the state are providing 1:1 technology devices for K-12 students. The renovated space would also create classroom simulation spaces in which teacher candidates can model practice in learning environments similar to those found in K-12 settings. (The 40 year old classrooms are not conducive to this type of instruction.) Interior modifications will be made to classroom and office areas to accommodate new instructional methods. The reconfiguration of space will allow innovative teaching methods and flexibility for changing learning processes.

In addition to the programmatic changes, the building's electrical and mechanical systems would be updated and exterior repairs made. The University estimates that \$8.9 million in deferred maintenance would be corrected through the renovation.

## ISU - Biosciences Facilities

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The biosciences are central to the core mission of Iowa State University and biosciences-based industries are a primary economic driver for the state of Iowa. More than 450 faculty members from twenty-five departments and five colleges are actively involved in the area of biosciences. More than 6,000 students are studying biosciences disciplines; this 27% increase over the past 5 years has been driven by both student interest and employer demand. A critical shortage of space, both in terms of capacity and functional capabilities, in addition to antiquated, functionally obsolete facilities (some of which are more than 40 years old, substandard and should be demolished), present significant programmatic challenges and limitations to providing an advanced, high quality learning and research environment for the biosciences.

This project will include a new Biosciences Building, renovate existing space, and consider additions to

existing buildings as part of a holistic, comprehensive plan to address the space needs of the biosciences programs.

To engage students in meaningful learning and to support new teaching practices, classroom and teaching laboratories need to be expanded and transformed to include current educational technology and instructional laboratory capabilities. Existing buildings do not provide the types of collaborative space for team learning and student engagement that support a high-quality educational experience.

The biosciences programs also have a critical need for multi-disciplinary, high quality research labs that include computational, biological, wet, and specialized instrumentation laboratory space. Existing buildings, which were not designed and constructed with laboratory flexibility and modularity as a program element, cannot accommodate increased collaboration across multiple disciplines along with flexible research space that responds to changes in research activity.

## Fire & Env Safety, Def Main, Campus Security, Reg Compliance

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The FY 2015 request is for \$75 million to correct fire and environmental safety deficiencies and deferred maintenance, provide campus safety improvements, and address regulatory compliance. The Five-Year Plan (FY 2015 to FY 2019) includes \$175 million. Appropriations totaling this amount would have a

major impact on correcting the more than \$567.1 million in deficiencies reported to the Board in February 2013 as part of the Facilities Governance Report.

Academic/research/administrative (general fund) facilities at the Regent institutions total approximately 17.8 million gross square feet of the total 36.5 million gross square feet of Regent enterprise facilities. The replacement value of this academic space exceeds \$8.2 billion.
